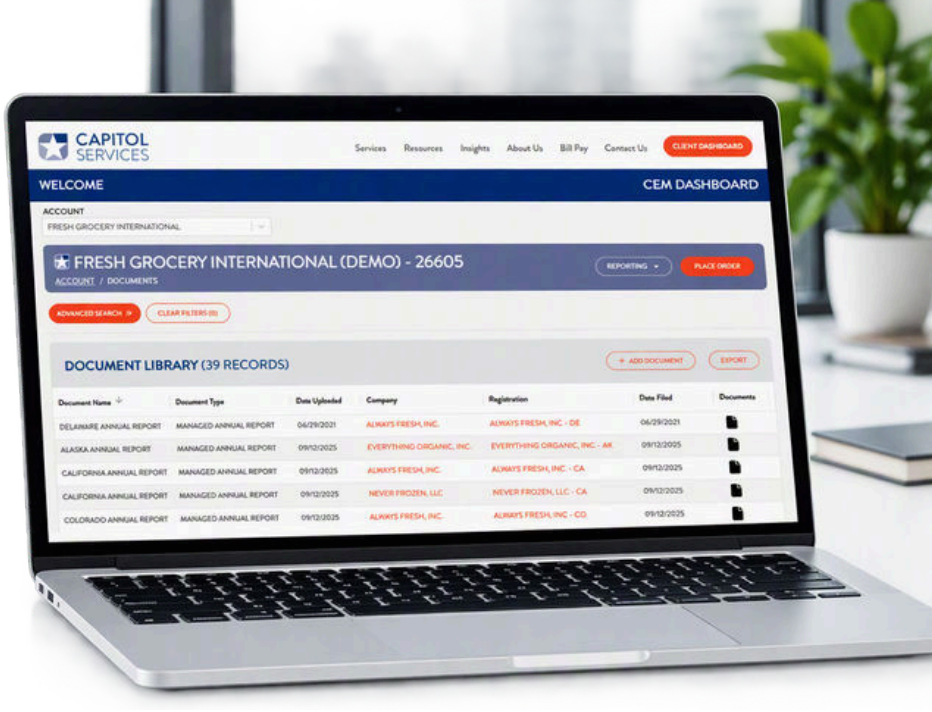
CAPITOL SERVICES

CEM PRO

A more connected way to manage your entity portfolio.



CEM Pro brings your entity data, documents, reporting, and compliance activity together in one easy-to-use platform—backed by the expertise and support you trust from Capitol Services.

POWERFUL TOOLS. REAL VALUE.

CEM Pro is designed for organizations that manage multiple entities and need reliable information at their fingertips. It gives your team greater visibility, reduces repetitive work, and helps you stay informed and ahead of compliance needs, at a fraction of the cost of other entity management solutions.

Manage Your Entire Portfolio

Add and manage entities, domestic and foreign, active and inactive, including those outside of Capitol Services' Registered Agent scope.

Centralize Key Information

Maintain contacts, addresses, management and ownership data, and historical records in one convenient place for all of your business entities.

Upload and Access Secured Documents

Store records and download filed annual reports directly within the platform. Customize permissions to control who sees your garnishment or SOP information.

Reliable Single Source of Truth

Create custom reminders, and manage tasks for business licenses and other compliance events, in one convenient and easy-to-use dashboard.

Turn Your Data Into Actionable Insights

Search, filter, and export data, or generate a one-click Company Snapshot Report with entity registrations, Registered Agent information, and more.

Sophisticated entity management. A more approachable solution.

CEM Pro gives you robust, approachable entity management capabilities without the complexity of some enterprise options—and it comes with the dedicated and personalized support you can count on from Capitol Services.

READY TO GET STARTED?

Your Capitol Services Account Executive can provide a personalized demonstration of CEM Pro, answer your questions, and help you explore how the platform can help optimize your entity management workflow.
